

## Goals

What progress do consumers want to make?  
What are they trying to avoid?

Goal

Category

## Constraints

What blocks the consumer from achieving or maintaining their goals?

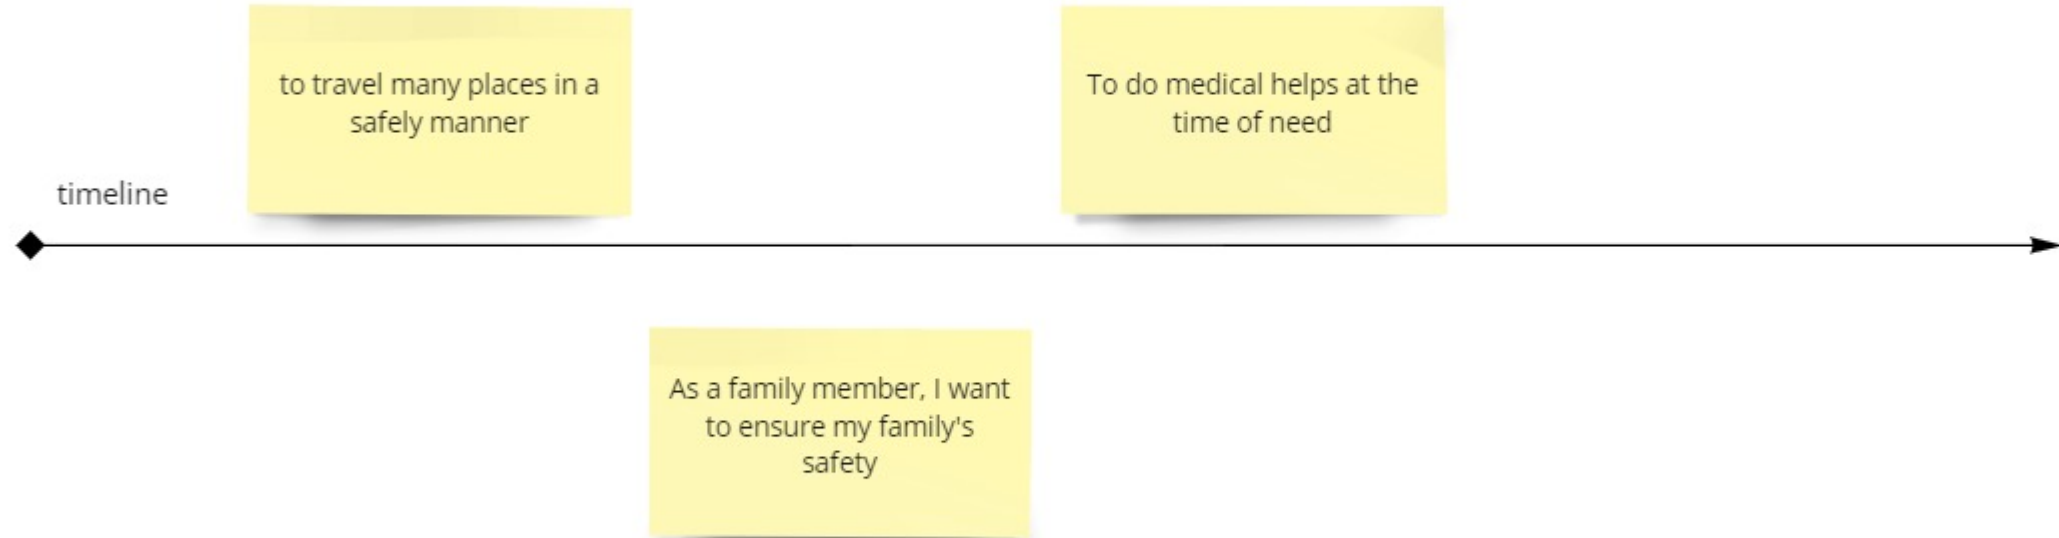

Constraint

Category

## Catalysts

What triggers the consumer to start looking for something new? What makes them act now?

## Summary

Tell a story of your ideal customer.

What do they want to change about themselves and their environment? Why today and not before?

### Group 1

I did it. I started a new role and finally built a team to drive my initiative.

Focused  
more on  
leadership

I noticed that we struggle to collaborate effectively and communication takes over my time. Worst of all, we lack space for creativity.

Focused  
more on  
managing  
stress

By being an example and engaging others, I try to champion a new way of working in my teams or organization. This is sometimes difficult as people are hesitant to embrace the change.

Let's keep  
this one

## Job to be Done

Describe in one sentence what progress the consumer seeks in their life.

**Help me to**

monitor of  
people's  
location  
continuously

ensure we  
can all work  
in one place  
with ease

experience,  
effect of a  
solution

**so that I can**

benefit /  
progress

inspire  
everyone to  
collaborate  
more often

## Choice Set

What solutions is the consumer using today?  
What did they stop using?  
What did they consider using?

### Hired

A magical application  
solution

### Considered

Design  
thinking  
trainings

GPS navigation  
and  
monitoring of  
containment  
areas

### Fired

In-person  
workshops

### Trust

How does the consumer come to trust / mistrust the product?

efficient use and friendly manner

keeps you updated about the containment zone details

### Imagined Use

How does the consumer imagine the product would work before trying it out? What functions or mental models are difficult to understand?

notifies when you enter the containment area

complex UI design makes the user difficult to understand

### Value for Money

How do they think justify price? What other products or experiences do they compare the expense to?

gives notification when you near any containment zones

helps reporters and doctors to do their work in an efficient manner

### Novelty / Familiarity

What sounds novel or familiar?

Collaborating with dozens of people feels new

Stickies feel familiar

## Progress Signals

What signals tell the consumer they are moving closer to or further away from their goals?

Team members start to collaborate more often

Team members start to show progress in work more often

I repeat my priorities less.
